

I just wanted to write to inform you what a terrific service KLOVE performs in our community. It's ability to reach thousands upon thousands of listeners with their positive and uplifting christian value-based programming is truly a godsend. Any efforts made that could be considered contradictory or opposing to this station would truly be a tragedy should they succeed. Should another station take over and utilize the bandwidth that KLOVE broadcasts on for any other purpose would be a disservice to those unable to receive the KLOVE message. I would HIGHLY recommend not allowing any other LPFM station to take any bandwidth away from KLOVE and their listeners. Please take whatever steps necessary to ensure that KLOVE's FM translator service is not given lower priority than LPFM ones. Thank you for your time.
